Innovative broom for agricultural businesses

October 2013

Osborn exhibiting at AGRITECHNICA in Hannover

Osborn developed an innovative cleaning solution for industry and agricultural businesses. It is a broom attachment for tractors and forklift trucks consisting of 11 separate strip brushes mounted under a 5 mm steel-hood. The Broomate doesn't only clean away sand, gravel and mud, but also standing liquids. Experience the easy handling of Osborn Broomate in a short video at www.broomate.com

Next to Broomate Osborn will also exhibit other professional cleaning solutions and animal brushes for agricultural businesses. Please visit AGRITECHNICA in Hannover from 12th to 16th November 2013. You will find Osborn in Hall 1, Booth B 209.
