Innovative broom for agricultural businesses and industries

June 2013

## **Osborn Broomate gold medaled**

Osborn developed an innovative cleaning solution for industry and agricultural businesses. It is a broom attachment for tractors and forklift trucks consisting of 11 separate strip brushes mounted under a 5 mm steel-hood. The Broomate doesn't only clean away sand, gravel and mud, but also standing liquids.

At an agricultural fair in Brno/Czech Republic the product was awarded a gold medal by the magazine „Zemědělský Týdeník“ for its innovativeness. Experience the easy handling of Osborn Broomate in a short video at [www.broomate.com](http://www.broomate.com)
