

Press Information

Osborn Products available 24/7

June 2013

Osborn now at nexMart-Portal

Since June 10th, 2013 Osborn is connected to the biggest European trade-portal „nexMart“ via ERP. Dealers participating in the portal can check their individual net prices and the availability of Osborn products. Products can be ordered online 24/7. The process is only taking seconds. All information is retrieved live out of the Osborn system. Additional advantages for dealers who process their order online via nexMart: The minimum order value per position is only 40 Euro (instead of 75 Euro).

Osborn International is the global leader in surface treatment solutions and finishing tools. Customers profit from premium quality products and a professional service. Osborn is the only manufacturer with a certification of the German organization TÜV-Süd for over 650 products from the standard assortment. User-friendly packages with 8 languages and a direct link towards more information on the internet make Osborn the first choice for its partners. More information at www.1choice-partner.de.
