FOR IMMEDIATE RELEASE:

Osborn Offers the Products Welders Need to Finish the Job

CLEVELAND – January 2013 – [Osborn](#) offers a complete line for finishing products designed for welding applications.

Designed specifically for the professional welder, products in Osborn's Welders Choice™ catalog include:

- Stringer bead brushes, including the refined TY™ encapsulated stringer bead brushes that were developed by Osborn, in conjunction with leading offshore pipeline companies, to quickly and effectively clean J-weld joints. The narrow-face, aggressive knots used to make the TY encapsulated wheel brushes have been refined over the years with improved elastomers and are perfect for cleaning stringer bead welds.
- Scratch brushes made with kiln-dried hardwood for maximum tuft retention, even for severe applications. Osborn uses high quality wire fill in these brushes that provides superior cutting ability and extreme fatigue resistance.
- Cup brushes, including the TY™ encapsulated cup brushes which are constructed for better balance for longer product life. The brushes easily mount on portable and electric tools and finishing machines and are ideal for surface prep and removing burrs as well as other surface work.

Osborn also offers abrasive products for cutting, finishing and grinding. The abrasive products are all designed for superior performance and long life, using durable materials.

“Osborn worked with welders to define their product needs, then created the Welders Choice catalog that brings all of those products into one place,” said Jeff Naymik, marketing manager at Osborn.

Osborn is the world's leading supplier of surface treatment solutions and high-quality finishing tools for hundreds of industrial and commercial applications such as metal finishing, honing and surface polishing. Celebrating its 125th anniversary in 2012, Osborn now includes operations in 15 countries and serves customers in more than 100 countries. A unit of Jason Inc., Osborn carries more than 10,000 standard products and more than 100,000 customized solutions to serve a diverse group customers and industries.
